

LINGO

OVERVIEW

Dedicated power supply for the Linn SONDEK LP12 turntable

KEY FEATURES

- Separate, extremely low-noise crystal oscillators for 33 $\frac{1}{3}$ and 45 rpm
- Precision filtering of mains voltage to minimise harmonic distortion
- Load-sensing circuitry provides extra torque at start-up
- Electrically isolated from mains supply variations
- Easy upgrade for any SONDEK LP12 turntable

LINGO is an external power supply designed exclusively for the SONDEK LP12 turntable. It offers unsurpassed speed accuracy for both 33.3 and 45 rpm, plus precise filtering of mains voltage to ensure harmonic distortion is kept to a minimum.

At the heart of the LINGO are two very low-noise crystal oscillators – one for each turntable speed. These coupled with the mains filtering provide the LP12's 24-pole synchronous motor with an exceptionally clean sinusoidal waveform.

Load-sensing 'stall detection' circuitry is used to feed the motor with higher voltage for increased start-up torque and reduced voltage once the platter reaches the selected speed.

LINGO offers an easy upgrade for existing LP12 owners using VALHALLA or BASIK power supplies. It is available in black and silver finishes from qualified Linn outlets worldwide.

TECHNICAL SPECIFICATION

Dedicated power supply for the Linn SONDEK LP12 turntable

| | |
|---------------------|---|
| ■ Introduced | 1990 |
| ■ Type | Power supply for SONDEK LP12 turntable |
| ■ Speed | 33.33 rpm, 45 rpm |
| ■ Power Consumption | 6 W |
| ■ Voltage/Fuse | 240 V/T200 mA |
| ■ Dimensions | W 320 mm x H 80 mm x D 320 mm W 12.6 x H 3.2 x 12.6 inches |
| ■ Weight | 1,5 kg, 3.3 lbs |
| ■ Finish | Black/Silver |
